## CITY OF DAYTONA PURCHASES AUTOMOBILE FIRE TRUCK FOR DELIVERY IN THREE MONTHS

MODERN FIRE FIGHTING CAR  
CARRIES CHEMICAL ENGINE  
WITH 1,200 FEET OF HOSE

FINANCE COMMITTEE OF COUNCIL AUTHORIZED TO SIGN CONTRACT WITH AGENT OF LA-FRANCE COMPANY.

The city of Daytona has purchased an automobile fire truck and the new apparatus will be in the city and ready for service late this spring or early in the summer.

The necessary official action was taken by the city council at its adjourned meeting held in the city hall last night, when the finance committee was authorized to sign a contract with the agent of the American-La-France Fire Engine company of Elmira, N. Y., the fire truck to be built and delivered to the city in about three months.

This action by the council followed the verbal report made by the aldermen who went to Jacksonville Tuesday to witness a demonstration of the working of one of these trucks. The committee, which consisted of Councilmen Schmidt, O'Brien and Klock, accompanied by Chief Van Dorn of the fire department, were thoroughly pleased with the demonstration given in the metropolis and with the hospitality shown them by Chief Haney and members of the Jacksonville fire department.

The Jacksonville department has three of these La-France fire trucks and has had an order in for three more for the past two months. They have given excellent satisfaction in the metropolis. In the demonstration Tuesday the Jacksonville truck made a speed of 55 miles an hour, and made good time through loose sand eight inches deep.

The truck purchased by the city of Daytona, through Agent C. B. Payne, is a powerful truck, carrying a chemical engine of 40 gallons capacity and 1,200 feet of hose. The truck is equipped with electric starter, so it can be started with the turning of a switch and can be on the way to a fire within a few seconds from the sounding of an alarm. The chemical engine will be equipped with an extra length of hose and the body of the truck will carry the 1,200 feet of hose ready for immediate use.

The plan of the city council is to have two men paid to be constantly in charge of the truck, one for day service and the other at night, and to have a small company of about eight men trained to handle the apparatus and hose at all fires. These men are to be paid for service at all fires, but will not be on duty all the time. They will respond to alarms.

When the truck is run to a fire the chemical engine will be used immediately, unless the flames have too big a start, and the chemical will be played on the blaze while the firemen are attaching the hose to the hydrants and getting ready to

## BUSY DAY AT OPENING OF COURT

CRIMINAL COURT CONVENES  
WITH ITS HEAVIEST DOCKET

NO JURY TRIALS STARTED TUESDAY AND DAY IS SPENT IN SETTING DATES AND HEARING PLEAS.

The February term of the criminal court of record convened at DeLand Tuesday with the heaviest docket in the history of the tribunal. Information had been filed in 70 cases and nearly half of this number was from Daytona.

Judge Fish had excused a number of the jurors summoned on the regular panel and a special venire was summoned for the week. Those who constitute the jury are: J. R. Berry, M. C. Cone, J. G. Causey, A. C. Guess, E. L. Hon, L. B. Hord, J. J. Tillis, Larry Wright, Harry Lungren,

use the water. It is probable that in a majority of cases the use of the chemical will be sufficient to extinguish the fire.

The truck purchased is a No. 10 combination chemical and hose apparatus and the cost to the city is \$5,500. The city is given three years time in which to pay for the truck, with interest at six per cent.

## WALLACE HALL, AGED 9 YEARS, STRUCK BY AUTO AND FATALLY INJURED IN SEABREEZE TODAY

Struck by an automobile driven by George H. Wilkinson, Wallace Hall, aged nine years, son of a man employed on what is known as the Carrier place north of the Clarendon hotel, was probably fatally injured this afternoon.

The accident happened just in front of the Seabreeze school and Mr. Wilkinson is said to have immediately given himself up to the deputy sheriff.

From details of the accident learned it is reported the car was not moving at a high rate of speed, but that the child darted in front of the auto and was struck before the driver could bring the machine to a stop.

Dr. C. C. Bohannon was near by the scene of the accident in the act of repairing a tire on his automobile and was called to attend the injured boy. A hasty examination showed the skull had been fractured and the physician hurried the lad to the hospital in Daytona for treatment.

At a late hour this afternoon the injured boy was still alive, but there were few hopes held out for his recovery.

**EAST COAST TRAIN NO. 37  
JUMPS TRACK AT KEYLARGO**  
MIAMI, Fla., Feb. 12 — The engine, mail and express cars of train No. 37 on the Florida East Coast railway, which leaves Jacksonville, southbound, at 8:30 o'clock in the evening and passes through Daytona at 1:18 in the morning, jumped track at Keylargo at 8 o'clock last night.

It required 12 hours to clear the track and the train was that much late. The fireman jumped and was slightly injured and the express messenger was badly bruised.

The railroad officials say the cause of the accident is unknown and that no passengers were hurt.

MEN WHO WERE WITH SCOTT  
ON TRIP TO THE SOUTH POLE

LIEUT. CAMPBELL SAYS THERE IS AN AREA OF 10,000 SQUARE MILES OF UNKNOWN LAND THERE.

CHRIST CHURCH, New Zealand, Feb. 12—With flags flying at half mast the exploration ship Terra Nova, which carried Capt. Robert Scott and his south pole expedition into the antarctic regions, and which brought back news of the tragic death of Capt. Scott and his four companions on their final dash to the pole, arrived here today.

The main body of the party was exploring Terra Nova bay while Capt. Scott and his four companions made their final dash for the south pole. The party encountered many hardships, spending eight months cut off from the base of supplies. They lived on seals and when spring broke they returned to the food depot.

"There are 10,000 square miles of unexplored land around the south pole," declared Lieut. Campbell. "The immensity of this tract can scarcely be comprehended. The grandeur and magnificence of this sweep of land of absolute silence, and almost destitute of any living thing, can not be put into words."

**AMERICAN EMBASSY IS HIT  
BY SHELLS DURING BATTLE  
AT THE CAPITAL YESTERDAY**

1,000 KILLED AND AS MANY MORE WOUNDED IN FIGHTING AND STREETS ARE STREWN WITH BODIES.

MEXICO CITY, Feb. 12 — This afternoon the rebels began bombarding the tall business buildings in the city, on the tops of which the federals are using rapid fire guns.

Heavy damage is being done by the shells and the main cable office has been practically demolished.

Three thousand prisoners broke jail this afternoon and are now looting the city. The rebel cannons are doing great havoc to public and private property.

One shell struck the Mutual Life Insurance building, setting it on fire, but the blaze was soon extinguished. No regard is being paid to the British and American flags flying over buildings.

There is an unconfirmed report that 80 Americans have been killed, but it is impossible to confirm the report, owing to the fierce rain of shell.

### Fierce Battle Rages—

MEXICO CITY, Feb. 12—The battle between the federals and rebels was resumed today with the firing of heavy field guns.

Yesterday's losses are over 1,000 dead and wounded about equally divided between the federals and rebels, and neither side seems to have a decided advantage today.

The streets skirting the citadel are strewn with dead bodies. The federals this morning are shelling the arsenal, where the main body of the rebels is entrenched. Later in the day the infantry began firing.

A shell struck the chimney of the United States embassy yesterday, shattering it, and another almost tore a hole through the American flag. The American refugees are almost panic stricken.

President Madero, with a sword in his hand, led the firing line for two hours. Both sides were reinforced last night, after the fierce fighting of yesterday. Some civilians have joined the forces, but generally the populace has remained neutral.

The belief is growing that Porfirio Diaz, the former president of Mexico, is backing the revolution and plans to return and assume the reins of government if the Madero administration falls.

## DRESS AND ITS PSYCHOLOGY

We Are Prone to Judge by Externals. Declares Harrison Fisher, the Famous Artist.

We are all of us prone to judge by externals, our early training in copy-book maxims notwithstanding, says Harrison Fisher in Dress.

Emeline may have a lovely disposition, but that cannot hide the fact that there are knots in her shoe-strings, and though Beatrice sings like an angel, her gown fastens most untidily. Emeline's friends might be almost as sweet tempered as she is if her boots were not enough to make them cross. No less would the songs of Beatrice stir more hearts without the distractions of gaping hooks and missing buttons. Externals do count, however broad we may think our views to be.

It is a common observation that a man gets an impression of a thing as a whole. If he notices any detail, it is apt to be a sign that something is wrong. Carelessness, however, in the dress of either men or women, is usually betrayed by details.

Suppose that we ourselves have so far developed our minds and sensibilities that we form our opinions by what is, and not by what seems, are we not in constant embarrassment explaining our careless friends to others who are less condoning? It is a very human failing to wish our friends to appear well, a kind of vanity, if you like, in proving the excellence of our own taste. There is no law requiring us to placard our qualities to open view. How can our fellow mortals get any idea of us at the start of acquaintance except by the eye?

## U. S. Dentistry Abroad.

"An American at home, with or without toothache, is not much affected by the sign, 'Painless Dentistry,' but at sight of it in a foreign land he thrills pleasantly," a traveler said. "Its lure is not professional. Every tooth in his head may be perfectly sound, yet if stranded and homesick he welcomes that sign because all over Europe it is a sure indication that somewhere in the neighborhood lives a citizen of the United States. From the northernmost towns of Norway and Sweden to the boundaries of Sahara the words 'Painless dentistry' are likely to hit you in the eye at the most unexpected turning. Usually they are followed or preceded by 'American,' but that qualifying term is entirely unnecessary."

## No Hurry for That Vehicle.

A shortsighted old lady in a hurry to mount a tram car held up her umbrella and shouted to the driver of a passing vehicle, "Stop! Stop!" to which the driver replied, "Don't be in a hurry, mum; it ain't your turn yet." It was a hearse.

## A MAN YOU KNOW.

E. N. WALDRON  
One of the old residents who has seen Daytona grow from a village to a prosperous winter resort city.

## Worth Knowing.

Never throw away pieces of lemon after they have been squeezed with the lemon squeezer, for they come in handy for removing stains from the hands and elsewhere. Dipped into salt they will scour copper kettles nicely and remove stains from brasswork. Lemon like this will take stains, dirt and odor from pans and kettles as nothing else will. The odors of fish and onions can thus be easily removed.

**Absolutely Fireproof**  
**Will open July 1st**

Wm. S. KENNEY, manager

MR. E. W. GROVE, of St. Louis, Mo., is building the finest resort  
 hotel in the world, to be opened July 1st, 1913. It will be absolutely  
 fireproof, and is being built of the great boulders of Sunset Mountain, at  
 whose foot it sits. It is being built by hand in the old-fashioned way.  
 Full of rest and comfort and wholesomeness.

Q The front lawn is the hundred-acre eighteen-hole golf links of the  
 Asheville Country Club, and with it sixty acres of our own lawn.

Q The purest water obtainable anywhere, piped seventeen miles, from  
 the slopes of Mount Mitchell, over 6000 feet altitude. Biltmore milk and  
 cream exclusively, supplied from 200 registered Jerseys on the estate of  
 Mr. Geo. W. Vanderbilt. It is doubtful if this famous dairy is equalled  
 in the world.

Q Four hundred one-piece rugs are being made at Aubusson, France.  
 Seven hundred pieces of the furniture are being made by hand by the  
 Roycrofters. The silver will be hand-hammered.

Q The plumbing material will be the finest that has ever been placed in  
 any hotel in the world. The soil pipe has been hydraulically tested and  
 then galvanized. The hot water pipe, 18,000 lbs. in weight, will be solid  
 brass. The steam pipes are Byers' genuine lap-welded wrought iron tested  
 hydraulically to 1000 lbs. The bathtubs and fixtures all solid porcelain.  
 No pipes visible anywhere. No radiators to be seen—all placed in re-  
 cesses under windows. No electric bulbs to be seen.

Q The "Big Room," or what some call the lobby, is 80 feet by 120, and  
 the rugs in this one room will be worth \$5000.00. The two great fire-  
 places in it will burn twelve-foot logs.

Q For the golfers we are building lockers and shower bath rooms with  
 a forty-foot swimming pool that will not be excelled by the finest clubs  
 in existence, and the players will be less than 100 yards distant when they  
 are on the links.

Q Mr. Wm. S. Kenney, of Bretton Woods, N. H., who has shown in his  
 management of The Mount Washington hotel and Hotel Clarendon,  
 that he is the peer of hotel keepers, will manage the Inn.

Q We own eight hundred acres around the Inn (consumptives not  
 taken).

Q Especially available for northern guests in the Spring, Fall and Winter,  
 going or returning from farther southern resorts, or for an all Winter re-  
 sort.

Q The Inn is located on the side of Sunset Mountain, about a mile from  
 the top, and is not only cool enough in the Summer to make a blanket  
 necessary at night, but is protected and mild enough in the Winter to  
 make life enjoyable without enervation.

ANNUAL BUDGET IS ADOPTED  
BY DAYTONA CITY COUNCIL

ALDERMEN ESTIMATE THE

TOTAL EXPENSE OF THE CITY  
FOR COMING YEAR WILL  
AMOUNT TO \$36,981.

Estimating a total expense of \$36,981 for the city of Daytona during the next year, the city council at its adjourned meeting last night adopted the annual budget, to be turned over to the new council, as required by law.

The budget estimates what the actual expenses of the city will be during the year, and the necessary millage to produce this amount of money will be placed by the new council after the total valuation has been learned from the assessor's books.

The budget estimate prepared by the council is as follows:

Clerk	\$ 450.
Police	1,500.
Attorney	100.
Treasurer	100.
Assessor	200.
Collector	500.
Physician	100.
Councilmen	336.
Sundries	6,960.
Interest on city certificates	290.
Street lights	5,300.
Interest on bonds	2,175.
Streets	8,900.
Three mills school and one mill sinking fund	6,500.
Special assessment fund	2,460.
Total	\$36,981.

Those joyous, mythical lands where romance goes hand in hand with intrigue, where plots and counterplots threaten the monarch's life, where the gracious sovereign converses with the lowliest peasant, are brought back again in "The Goose Girl," which comes to the local theater in the near future. There is much entertainment in the result, and, while it is certain no such realm ever existed, there is satisfaction in witnessing the emotions and trials of royalty, tricked out as they always are with glorious bursts of passion and sorrow.

## BUSY DAY AT OPENING

OF COURT.

(continued from page one)

C. T. Cruise, Chas. Hall and J. S. Rogers.

No jury trials were held Tuesday but the court devoted the day to setting cases for trial and hearing pleas of guilty, and various motions.

The case of H. B. Stallings, white, charged with a statutory offense, was again continued; so was the case against Spencer Davis, a DeLand negro, charged with grand larceny. John Klein, white, of Port Orange, pleaded guilty to open profanity, and paid \$5 and costs; Irvin Hale, a 16-year old white boy, picked up in New Smyrna on a charge of vagrancy, pleaded guilty. He said he was from Jamestown, N. Y., and had no parents and no friends to help him out. Hale will work on the road for 60 days. Moses Richardson, dark, was before the court for the "manyeth" time, this particular offense being open profanity; Mose pleaded guilty and asked for mercy; the judge thought the county would be better off without Mose and suggested that if he be present Wednesday morning in court sentences would be passed upon him. Mose said if no one stopped him he would take his rags and scotch, and the last seen of him he was on his way.

C. G. Boynton, the white man arrested in Daytona on the charge of operating an automobile without a license, failed to appear and his bond of \$25 was ordered estreated. Frank Kelly and George Davis, two husky whites picked up on an East Coast freight train at the Daytona station last Sunday charged with beating their way, pleaded guilty to vagrancy, although they admitted they had some few cents in change, and will assist the highway commissioner for the next 60 days.

The case against Thelma Patterson, dusky dame, charged with the illegal sale of liquor, was continued.

The case against Harrison Thompson, the Daytona negro charged with the fifth offense of illegally selling liquor, was set for trial next Tuesday morning. Robert McNamee of Jacksonville, will defend him.

## Peculiarly Mean Swindler.

An elderly man has just been arrested in Berlin, Germany, who had won quite a reputation as a swindler of widows. He was in the habit of visiting the cemeteries and bringing himself under the notice of widows who had come to weep over their husbands' graves. He would engage a bereaved woman in conversation and then pour forth to her his sorrow over the recent loss of his own wife. Acquaintanceships begun in this way invariably grew into friendships, and that resulted in a proposal of marriage from the "widower" to the widow. The man would then borrow a sum of money from his future bride, or pawn some of her late husband's possessions and disappear. Some dozens of widows have been defrauded by him.

## Influence of College Men.

As educated men filter through the community, reforms are obtained that twenty years ago seemed millennial. The separation of local from state sources of revenue, the reparation of local from national elections, the treatment of a franchise as valuable property, the discriminating between ordinary industry and natural monopoly, the practice of scientific charity and penology, the concentration of responsibility in government—these and a score of other good things which once seemed as far above popular comprehension as four-dimensional space, have come to pass, thanks chiefly to the radiations from the classrooms.—Century Magazine.

## Her Proposal.

Miss Ethel Barrymore, apropos of leap year, told a story at the Colony club, in New York.

"A girl," she said, "looked nimbly at a caller one evening and remarked: 'George, as it is leap year—'

"The caller turned rather pale.

"As it is leap year, she continued, 'and you have been calling regularly now four nights a week for a long, long time, George I propose—'

"I'm not in a position to marry on my salary," George broke in, hurriedly.

"I know that well, George, the girl pursued, and so, as it is leap year, I thought I propose that you lay off and give some of the more eligible boys a chance."

## Discriminating Sparrows.

An Archdeacon visited lettuce, but as fast as it came through the ground the English sparrows ate it off. He finally got a few small flags and stuck them in the lettuce bed and not a sparrow would consent to touch that lettuce as long as Old Glory floated over it.—Atchison (Kan.) Globe.

## For Hammer Handles.

Electricians' tape to cover part of the handles of hammers and hatchets will prevent them from slipping out of the hand when in use.

## FREE THEATER TICKET CONTEST

Arouses Keen Interest—you can be guests of the Daily News at a Theatre Party to see

MR.

Paul Gilmore

Keen interest in being manifested in the Daily News "Misspelled Word Contest." The Daily News has purchased 12 \$1 seats which will be awarded as prizes to participants in this contest for finding misspelled words in the Daily News pay local readers, and press notices of the Paul Gilmore company.

Contestants must read and give both the correct and incorrect way of spelling the misspelled words in the Daily News pay local readers. A coupon will be found attached and each day's answers must be accompanied by one of these coupons.

Neatness, legibility of writing and novelty in sending in the replies will be considered a mark of credit and should be taken into consideration by those who are competing for the twelve theater tickets.

Contestants must submit their answers not later than the evening of February 19th, holding the six coupons and answers until the close of the contest, then mail or bring to the Daily News.

Neatness, originality, accuracy, etc., will be considered in the awarding of prizes, which will be divided as follows:

1st	4 \$1.00 Seats.
2nd	3 \$1.00 Seats.
3rd	2 \$1.00 Seats.
4th	2 75c Seats.
5th	1 \$1.00 Seat.

By participating in this contest you will no doubt find something to your advantage in our local columns and at the same time gain knowledge as to "THE HAVOC," that remarkable play which ran for over one solid year in New York, and which Mr. Gilmore will present here on Friday evening, February 21, at the New Daytona theater.

To Contest Manager

The Daily News:

The following words were misspelled in Paul Gilmore Press Notices and in your paid local readers:

## FIRST OF THE CHAUTAUQUA

ENTERTAINMENTS IS SUNDAY

## HEAVY SALE OF TICKETS SHOWS

THE APPRECIATION OF THE  
LOCAL PEOPLE FOR THE CHA-  
TAUQUA COURSE.

Beginning next Sunday afternoon the people of Daytona will be given the opportunity to hear some of the finest chautauqua talent in the country, the series of entertainments continuing for three days and nights at the New Daytona theater.

That the people of this city appreciate this opportunity to attend a series of high class entertainments is shown by the heavy advance seat reservations and additional reservations are being made daily at Hankins' drug store.

The series will open with a sacred concert Sunday afternoon. The entertainers will include such well known lecturers as Williams Jennings Bryan and John Kendrick Bangs, as well as the celebrated Chicago ladies' orchestra.

THE ANNUAL MEETING  
OF THE OHIO SOCIETY.

As previously stated in the columns of the Daily News, the annual meeting of the Ohio Society will be held in the New Daytona theater tomorrow afternoon at 2 o'clock. All Ohio people are invited to be present.

Dr. S. P. Leland will make the opening address, following which other prominent persons from the Ohio state will make short addresses. The last part of the program will be an informal reception. Voluntary music for the occasion will be accepted.

## Desire for Long Life.

There appears to exist a greater desire to live long than to live well. Many by their desire, cannot live their own measure by his good deeds, and he has not lived long enough to measure by his evil deeds, and he has lived too long.

## New Idea in Fruit Growing.

An electric motor to vibrate gently a fruit tree so that the sap flows to the buds and blossoms and enables them to resist frost has been patented by a Colorado orchardist.

## PLAY HUMAN HEARTS

TO BE HERE SATURDAY.

Good plays, like wine, improve with age. This is certainly true of that marvellously successful melodrama, "Human Hearts," which comes here Saturday night. The company to be seen in the play this season comprises all of last year's favorites, and where ever a part could be improved upon, the change has been made, and it is promised that never before has this beautiful play been so well presented. "Human Hearts" gives a pure, wholesome lesson that touches the heart-strings in the pathetic scenes and excites the risibilities in the humorous ones. The pathos and comedy are so well blended that the audience is in tears one moment and convulsed with laughter the next. The scenic equipment will be perfect in every detail, so it is said, and the management has done everything possible to insure a first class performance.

## By Installments.

The "epoch-making advice" of a bookmaker to a colleague in distress is related in Vanity Fair. The col league had been paid \$25 on a bet by a certain captain, who, in a fit of absent-mindedness, paid him the same amount again next day. "What shall I do about it?" asked the bookmaker of his friend; and prompt came the answer: "Ask him for it again."

## Not All Owing to Wife.

"Biggles" says he owes everything to his wife. "That isn't true," replied Biggles' father-in-law. "His wife quit lending him anything years ago and then he started in owing me."—Washington Star.

## PLANTING OF POTATOES IS

NEARLY DONE AT HASTINGS

## WEATHER CONDITIONS HAVE

BEEN FAVORABLE TO GROWERS  
AND SOME OF THE FIELDS  
NOW SHOW GREEN.

HASTINGS, Fla., Feb. 12 — This week will practically finish the planting of spuds in the Hastings potato belt. As estimated some time ago, the entire crop in cultivation will total about 9,000 acres, including Hastings proper, East Palatka, Orange Mills, Federal Point, Elkton, Hurds and Spuds.

Weather conditions have been most favorable and if climatic conditions remain the same the crop will grow fast as farmers have land in excellent condition and well fertilized. Fields that were planted first now show green from the new crop as the abundance of moisture and warm weather caused seed to start growing as soon as they went into the ground. Rain has not interfered with the planting as it did last year; the only halt caused by rain occurred last week when operations were suspended for two or three days. It is impossible to estimate the percent of stand for another week or so, but if predictions are verified it should be a normal one.

## Unexplainable.

Men who complain that women are not natural seldom lose their hearts to those who are.

reached by boat.**NUMBER NINE ORANGE GROVE**—a  
large grove, passed on the way  
to the Beed, Knox & Beed grove,  
is 12 miles from Daytona.**NEW SMYRNA**—16 miles from Day-  
tona, over an excellent hard sur-  
face road; this drive is said to  
be the prettiest in the state. At  
New Smyrna are the ruins of an  
ancient fort and other historical  
spots, left by the colony of An-

west of New Smyrna, reached by  
motor over good road. This mis-  
sion is without authentic history  
but by many it is contended that  
this is the church built by Colum-  
bus on his second voyage to  
America. The altar is still extant,  
but at a later date the building  
was used as a sugar mill.**SPANISH SUGAR MILL**—2 miles  
west of Port Orange and about 8

tourist should miss.**DELEON SPRINGS**, 28 miles from  
Daytona; mammoth spring that  
throws out thousands of gallons  
of water a minute; a delightful  
bathing pool, and picturesque  
scenery. Spring is situated in an  
old plantation. Reached by motor  
over good road; a nice trip for  
a picnic party.**OAK HILL**—hamlet, 10 miles south

ON ARRIVAL IN NEW YORK****IRREGULAR TRADING IN FLORIDA  
ORANGES IN NEW YORK MAR-  
KET AND CONDITIONS ARE UN-  
SATISFACTORY.**

NEW YORK, Feb. 12—About 60  
cars of California oranges were  
received last week and the fruit was  
fairly good. Prices, however, were  
low and according to the opinion of  
several members of the trade, far  
below the prices that should have  
been obtained if the trade had not  
been frightened by the reports of  
the freeze in California. Although  
there was some poor fruit, the major-  
ity was just as good as it would  
have been had there been no freeze  
and cut well. Fancy large sizes sold  
from \$2.75 to \$4.30, with most sales  
from \$1.65 to \$2.50, and some poor  
stock down from 90c to \$1.35. The  
market was weak, with irregular trad-  
ing and prices and a general unsat-  
isfactory condition on Florida or-  
anges. Receipts continue fairly lib-  
eral but there was more or less de-  
cay, some being in very bad shape.  
Most sales of fruit in fair condition  
were from \$2 to \$2.25 with some of  
the best from \$2.50 to \$3.00 and a  
few extra fancy slightly higher.  
There was more or less off size fruit  
for which trade was very slow and  
which sold from 75c to \$1.50. About  
15,000 boxes of Porto Rico oranges  
were received and although conditions  
were generally somewhat bet-  
ter than last week, stock still showed  
considerable amount of decay. Cul-  
tivated sold at 75c to \$1.65 and wild  
70c to \$1.50.

Receipts of Florida grapefruit were  
moderate and although fruit was gen-  
erally pretty good, the market was  
weaker and generally lower except  
on extra fancy bright fruit. Good  
bright fruit sold from \$3.50 to \$4.00,  
ordinary to good \$2.00 to \$2.75 and  
less desirable from \$1.00 to \$1.50.  
The market was easy on Porto Rico  
grape fruit of which about 4,000 boxes  
were offered. Many showed de-  
cay and the market was lower; fancy  
brought from \$2.50 to \$3.50, choice

The second of the series of  
lectures given under the auspices of  
the Tourist bible class of the Day-  
tona Beach Methodist church will be  
given by Rev. D. H. Rutter, pastor  
of the Daytona Methodist church, in  
the Daytona Beach church tomorrow  
night. The subject of the lecture  
will be "Socialism."

**SHORTAGE OF CARS HINDERS  
SHIPMENTS OF CITRUS FRUITS****EAST COAST GROVE OWNERS  
FEAR SHIPMENTS OF VEGETA-  
BLES WILL SERIOUSLY AFFECT  
MOVEMENTS.**

JACKSONVILLE, Fla., Feb. 12—  
The citrus fruit movement was some-  
what lighter last week as most of  
the fruit is moving under refrigeration,  
and at some points it was im-  
possible to get refrigerator cars.  
Many growers refuse to ship any  
other way.

The fruit is still showing much de-  
cay in transit. Reports from heavy  
shippers are conflicting as to the  
best way to ship and as to the reason  
that fruit is arriving in such  
poor condition. Some shippers claim  
that their fruit is moving very satis-  
factorily under refrigeration, showing  
decay of 15 per cent. Others claim  
fruit under refrigeration is showing  
decay of 25 to 35 per cent and say  
they have shipped fruit in ventilated  
cars that did not show any more de-  
cay. In fact, sold on the market at  
prices as good as fruit which moved  
under refrigeration. It is hard  
for shippers to determine what is  
best to do, but the largest individual  
growers claim that fruit should be  
shipped under refrigeration, and that  
in picking, hauling and packing the  
best possible care should be taken,  
fruit being washed and cleaned of  
all fungus and dirt and thoroughly  
dried. If fruit cannot be thoroughly  
dried after washing, don't wash it.  
It is a noticeable fact that fruit picked  
last week during the two days of  
cool weather arrived on the market  
in better shape with less decay.

There is little fruit being bought  
on the trees and practically no specu-  
lation in any way. The movement  
is steady and about the same num-  
ber of cars are rolling weekly. There  
is no improvement in the car short-  
age and the fruit growers are afraid  
that the demand now for cars to  
move the East Coast vegetable crop  
will seriously affect them.

The total citrus fruit shipments  
for the month of January, 1912, was  
1,987 cars. The movement for Janu-  
ary, 1913, was 3,562 cars, an in-  
crease of 1,574 cars.

Several cars of rails for the elec-  
tric railway were received Tuesday,  
and are today being transferred to  
the parkage at the corner of Bay  
and Beach streets to be handy for  
the work of laying them which will  
probably soon be commenced.

**WILL GIVE EXHIBITION OF  
METHODS OF LIFE SAVING****CAPTAIN BENJAMIN H. SCHLOM-  
BERG TO GIVE DEMONSTRATION  
NEAR DAYTONA BEACH  
FERRY DOCK.**

Captain Benjamin Harrison  
Schlomborg of the U. S. Volunteer  
Life Saving corps, who arrived  
Tuesday and will be here for about  
a week, will tomorrow afternoon at  
2 o'clock give an exhibition in the  
vicinity of the ferry dock at Day-  
tona Beach, which will be an inter-  
esting and instructive demonstration  
of the various methods of life saving,  
using Dr. Schaefer's method of re-  
suscitation, also the Sylvester and  
Schlomborg methods. The latter  
Captain Schlomborg has used suc-  
cessfully for the past 14 years.  
This will be an excellent opportunity  
to gain some knowledge of life saving  
work.

A physician is not always at hand  
to save life, limb or appearance to  
the victim of many serious accidents.  
Frequently a bystander can render  
great service by applying and under-  
standing the reason for applying such  
measures as splints to a broken  
limb, the giving of emetics, inducing  
of breathing and the safeguarding of  
the sufferer until a doctor arrives.

Captain Schlomborg will also do  
an underwater feat, he being the  
only man in the world to undress  
under water in 25 seconds.

Mr. and Mrs. Royal H. Smith of  
Brooklyn, N. Y., are spending a week  
with their friends, Mr. and Mrs. L.  
H. Rowe at their home on Orange  
avenue.

Mrs. J. H. Graham of St. Joseph,  
Mich., who is occupying her winter  
home at the corner of Loomis and  
Palmetto avenues, made a trip to St.  
Augustine Tuesday in her car, ac-  
companied by Dr. and Mrs. Burke,  
who are located for the season on  
Second avenue. The party left here  
in the morning and returned in the  
afternoon. C. B. Wingate, who  
drives for Mrs. Graham, says the  
road is in very fair condition and  
the work of improvement is in pro-  
gress in several places.

**MORE BATTLESHIPS ORDERED

READY TO MOVE ON INSTANT**

(Continued from First Page.)

ready to move southward at an in-  
stant's notice.

Orders have been issued for the  
entire mobilized army of the United  
States, about 15,000 strong, to be  
ready to advance on Mexico, if  
President Taft decides that inter-  
vention is inevitable.

The latest dispatches to the pres-  
ident from Ambassador Wilson at  
Mexico City confirm the report that  
1,000 are dead and as many more  
were injured yesterday. The am-  
bassador reports that a number of  
Americans were injured, but none of  
them fatally. The American embassy  
was hit by several cannon balls. The  
ambassador was unable to learn the  
names of the wounded foreigners.

Two more battleships, the  
Nebraska and the Vermont, have  
been ordered to proceed to Mexico.  
The Virginia and the Georgia are al-  
ready on their way there from Guan-  
tanamo.

The auction sale of lots on  
Arlington avenue this morning at-  
tracted a large crowd and quite a  
number participated in the bidding.  
The lots sold at very reasonable  
figures, ranging from \$250 to \$450  
each. The sale commenced at 10  
o'clock and shortly before noon all  
the lots, 20 in number, had been dis-  
posed of, following which a distribu-  
tion of presents was made. The lots  
were sold by the owner, S. A. Pierce,  
who is an excellent auctioneer. At  
the conclusion of the sale Mr. Pierce  
called attention to the sales of W.  
W. Marshall and C. E. Rowland and  
advised his hearers to attend and  
purchase lots, saying no one could  
help making money by investing in  
real estate in Daytona.

**KING'S RELATIVES ARE  
KILLED IN BATTLE TODAY.**

CETTINJE, Feb. 12—A fierce  
battle is raging today between the  
Turks and Montenegrins at Yamb-  
loch, north of Scutari. A brother  
of King Nicholas has been wounded  
in the shoulder and two of the king's  
cousins have been killed. Both sides  
are losing heavily.

Nowadays a good book is like a single  
seed planted in a garden surrounded

**PUBLIC MEETING TO BE HELD  
AT H. R. Y. CLUB HOUSE****MEETING CALLED TO INCREASE  
INTEREST IN AND FURTHER  
CAUSE OF IMPROVEMENT OF  
MOSQUITO INLET.**

A public meeting will be held in  
the Halifax River Yacht clubhouse at  
7:30 o'clock next Friday evening,  
the meeting being called for the pur-  
pose of increasing interest in and  
furthering the cause of improvement  
of Mosquito inlet.

No question of more vital import  
to the people of this section and the  
whole of middle Florida has ever  
come before the public. The mass  
meetings held recently in the audi-  
torium of the public school building  
were not as largely attended by res-  
idents of Daytona as the importance  
of the subject warranted and the  
business men particularly were not  
present in any great number on  
either occasion, although they will as  
a class be more directly benefited by  
the accomplishment of the project  
than anyone else.

It is to be hoped that they will  
attend the meeting Friday night and  
be awakened to the great possibili-  
ties of the proposed improvement  
which would save barrels of money  
to the people within a large radius  
of the inlet.

Rev. D. H. Rutter, who was a de-  
legate to Washington, D. C., recently  
from the Daytona board of trade in  
the interest of Mosquito inlet im-  
provement, will address the meeting  
Friday night and it is also hoped to  
have Judge Charles E. Barrett, of  
New Smyrna, and other speakers.

Residents and business men es-  
pecially who value the advancement  
of Daytona and the section generally  
should attend this meeting and  
learn something of the important  
facts concerning the question at  
issue. Mr. Rutter has returned from  
Washington more than ever convinced  
that the object can be attained by  
united and continued effort.

Notwithstanding the fact that  
action was taken some time ago by  
the Daytona board of trade looking  
to the re-lighting of the big Day-  
tona sign at the P. H. C. railway  
passenger depot, the sign still re-  
mains dark at night, no current hav-  
ing been turned on to the lights  
which were installed last season to  
illuminate the sign. This is an ex-  
cellent advertisement for the city,  
especially prominent when the lights  
are turned on it at night and the  
matter should not be neglected.

## Watch It Grow

Watch it through the columns of The Daytona Gazette-News. It is published every Saturday the year 'round. More than a million dollars in improvements in Daytona and vicinity have been made during the past year and many large undertakings are laid out for the coming season, and you will want, of course, to keep abreast with the progress of the community.

It gives you more local news than all local papers of Volusia combined. Many of the little personals about persons with whom you are acquainted will interest you.

## WILSON AND MARSHALL ARE NOW ELECTED

OFFICIAL COUNT OF RETURNS  
IS MADE AT JOINT SESSION

THIS IS THE LAST MOVE IN CARRYING OUT THE WILL OF THE PEOPLE AS EXPRESSED AT THE POLLS.

WASHINGTON, Feb. 12.—Woodrow Wilson and Thomas R. Marshall were formally elected president and vice president of the United States today in accordance with the provisions of the constitution governing the election of these officers.

The last move in carrying out the will of the people registered at the polls November 5, 1912, was staged in the house of representatives, where members of both the house and the senate met in joint session shortly after 1 o'clock today. Here Senator Bacon of Georgia, president pro tem of the senate, and Secretary Bennett of the senate, opened the sealed envelope containing the certificates showing the electoral ballot cast in each state.

The vote was counted by Senators Dillingham of Vermont, chairman of the senate committee on privileges and elections, and Paynter of Kentucky, ranking democratic member of that committee who acted in conjunction with Representatives W. W. Rucker of Missouri, chairman of the house committee on the election of the president and vice president, and Olin H. Young of Michigan, the ranking republican member of that committee.

The electoral vote as cast was as follows:

State	Wilson Taft R'velt	Dem. Rep Prog.
Alabama	12	1
Arizona	3	0
Arkansas	9	0
California	2	11
Colorado	6	0

## STATE HAPPENINGS

News from Fair Florida Briefly Told

At an early date the citizens of St. Petersburg will vote on a commission form of government.

The city council has ordered fire escapes on the school buildings in St. Petersburg as a result of recommendations made by representatives of the Florida Fire Prevention Society, who made a thorough inspection of the conditions in that city a few days ago.

The public schools of Tarpon Springs are said to be enjoying one of the most successful years in their history. The enrollment of the student body numbers upwards of three hundred. Attendance thus far this year has averaged 90 per cent of the enrollment.

Dee Work, of the Dixie Land Company, brought to our office one day the past week, a very nice sample of some young oats that he has grown on his farm. He also brought us some new Irish potatoes which, while small, had not attained their full growth and shows that Irish potatoes can be grown here in the winter all right enough, if the grower puts the same amount of care and energy into his business that Mr. Work does.—DeFunak Herald.

In an election held on Tuesday to ascertain the will of the people of this city in the matter of cattle and horses running at large in the city, the vote was nearly two to one in favor of keeping them out. A larger vote was polled than expected, and is taken as expressive of a sentiment prevailing here. At an adjourned meeting of the city council held that night the town attorney was instructed to draw up an ordinance the enactment of which will carry out the will of the people as expressed in the election. Thus a matter that has agitated here for some time is disposed of.—Punta Gorda Herald.

An unusual occurrence in which two immense eagles caught their talons in each others' breasts, rendering both birds helpless and causing them to fall to the ground is reported by County Superintendent of Public Instruction D. D. Corbett. Mr. Corbett saw the eagles and heard the story on an official trip in the south end of the county. The big eagles were found locked in the death grapple by a negro named Gadsden who works for the O'Brien turpentine still below Moultrie. They were on the ground helplessly floundering about, the talons of each eagle buried in the breast of the other. They were easily dispatched by the negro with a pine knot. They were of immense size. Apparently they had met in fierce conflict in the air and had each used their talons with equal dexterity, resulting in their tumble to the earth where they would have died from the wounds each had inflicted upon the other.—St. Augustine Record.

Satisfaction in Life.

I would have nobody to control me; I would be absolute; and who but I? Now, he that is absolute can do what he likes; he that can do what he likes can take his pleasure; he that can take his pleasure can be content; and he that can be content has no more to desire. So the matter's over; and come what will come, I am satisfied.—Cervantes.

Brevity in Correspondence.

For brevity nothing can beat the correspondence between Victor Hugo and his publisher on the issue of "Les Misérables." Very busy but anxious to know how the book was selling, Hugo sent the publisher a card marked simply "Z." The reply came back "1."

Forced Sale.

"How did you manage to keep a cook in the country, Mrs. Well-off?" "By making the house over to her and moving back to the city."

## THE PRINCE GEORGE.

J. R. Skinner, attorney of the  
Metropolitan R. R. Co., of New York,  
is stopping at the Prince George  
hotel.Herbert Griffin and wife of New  
York, who were guests of the Prince  
George two years ago, are again at  
the hotel and will spend some time  
here.A party from Oregon, which will  
eventually continue on to Panama, is  
stopping at the Prince George for  
a few days. The members of the  
party are E. A. Holmes and wife,  
Walloria, Ore.; Fred J. Holmes  
and wife, Miss Nellie E. Gummert,  
Miss Ruth Russell, LaGrande, Ore.;  
Mr. and Mrs. M. G. Lawrence, Ash-  
land, Ore.Other arrivals at the Prince George  
are O. Kesler, Columbus, O.; M.  
Burr Hurd, Johnston, Pa.; C. A. Pat-  
terson, D. W. Patterson, wife and  
child, New York; Wm. M. Callisted  
and wife, Hamilton, Md.; James W.  
Johnston, Miss H. Johnston, Toron-  
to; Wm. J. Buck, Jr. and wife,  
Charleston; H. M. Dryent, wife and  
child, Parre, Ont.; Mr. and Mrs. N.  
B. Spring, Miss V. Spring, Philadel-  
phia; Geo. G. Gleason, St. Augus-  
tine.

## Stevenson's Criticism.

Robert Louis Stevenson once went  
to hear Charles Halle play the piano  
at the Queen's hall. After the per-  
formance Stevenson, in his black  
shirt, walked in silence out Regent  
street to Oxford circus. He stopped  
at Oxford circus and, in a slow,  
meditative voice, pronounced, this  
excellent criticism on the English  
musician he had heard: "The man-  
ner of the elderly statesman at the  
piano was somewhat austere and  
chilling."

## Many as One.

The value of one person's mind or  
one person's work is steadily dimini-  
shing; it is the associate mind, the  
many hearts beating as one, that now  
move the world; and this is so well  
understood by women that they are  
rapidly learning what can be accom-  
plished in economic, social and intel-  
lectual life by the power of an edu-  
cated public opinion.

## Evening Things Up.

"Takes us some time to train a  
girl," remarked the head of the large  
department store. "And then you lose  
a lot of girls through marriage." "Yes;  
but things even up. A lot of girls get  
tired of their husbands and come back  
to us."

## TENNIS IS ANCIENT.

The Game Had Its Origin In The Old  
Days of Knighthood.By many people tennis is thought to  
be an essentially modern game, but in  
reality it is probably one of the most  
ancient ball games and was a sport  
long before cricket was dreamed of.  
Though undoubtedly not existing dur-  
ing the Arthurian period, tennis, or, as  
it was called, "tenez," is mentioned  
in the Arthurian legends, written in  
1500, and the knights of the round ta-  
ble were pictured as engaged in the  
sport when the weather was too hot for  
tournaments or jousts.From a simple beginning and through  
many centuries, the intricacy of the  
game's rules have been developed,  
writes a contributor to the London  
Times. Its present name seems to be  
a corruption for the term "tenez,"  
which the server used in the same way  
"ready" is called out now. In the be-  
ginning the name was jeu de paume,  
taken from the fact that the ball was  
struck with the hands instead of with  
a racket. Later the hand was incased  
in a glove, and still later the glove was  
covered with strings running criss  
cross, from which condition there was  
but a short step to the short handled  
racket.In feudal times the courts were mere-  
ly open grass plots, oftentimes the  
lawn of a castle, and not till late in  
the seventeenth century was the court  
inclosed, when walls were built as  
backstops. Now most of the modern  
English and French courts are entirely  
inclosed with four walls and a roof.

## WENT DOWN WITH HIS SHIP.

Tragic End of the Designer of the ill  
Fated Titanic.The story of a brilliant career termi-  
nating in abrupt tragedy has been writ-  
ten by S. F. Bullock in his "Life of  
Thomas Andrews," the designer of the  
Titanic. After studying at the Royal  
Academical Institution at Belfast An-  
drews entered the Harland & Wolff  
shipyards as apprentice. In 1904, at  
the age of thirty-one, he was made  
chief designer. Later he became a  
managing director.Andrews sailed on the Titanic, cer-  
tain, as he wrote to his wife, that the  
ship would "do the old firm credit." A  
survivor has told how, after the colli-  
sion, Andrews busied himself with  
helping women into the boats and di-  
recting the rescue work in other ways.  
This is the story of his last moments:One met him bareheaded and carry-  
ing a lifebelt on his way to the bridge,  
perhaps to bid the captain goodbye.  
Later an assistant steward saw him  
standing alone in the smoking room,  
his arms folded over his breast and the  
belt lying on a table near him. The  
steward asked him, "Aren't you going  
to have a try for it, Mr. Andrews?"  
He never answered or moved. "Just  
stood like one stunned."Others saw him a few minutes before  
the end on the boat deck, our final  
and grandest sight of him, throwing deck  
chairs overboard to the unfortunates  
struggling in the water below.

## He Obeyed Orders.

Sir Henry Roscoe tells this of the  
scientist Faraday and his assistant,  
Sergeant Anderson: "Anderson was  
the sole assistant to Faraday and of  
course was utterly uneducated in sci-  
entific matters, but he could obey orders,  
which is not always a characteristic of  
an educated man. One day Anderson  
was told by Faraday to keep stirring  
a pot containing some chemicals over  
a fire until he returned, Faraday being  
in the habit of going upstairs to tea in  
his rooms and coming down directly  
afterward to work in the laboratory  
during the evening. For some reason  
he was prevented from coming down  
again and forgot that he had told An-  
derson to watch the pot. On coming  
down the next morning he found An-  
derson still stirring the pot, having  
been at it the whole night and thus  
carrying out the order which was giv-  
en him."

## His Advice Worked.

"And don't forget to climb, boy,"  
said the later day Polonius as he parted  
from his college bound son; "climb  
and keep a-climbin'."

"I won't forget, dad," said the boy.

"Goodbye."

He didn't forget.

Three days later he climbed over the  
prostrate forms of twenty-seven dis-  
abled sophomores and, climbing the  
greased pole to the hated upper class  
emblem, yanked it from its fastenings,  
thereby winning a place in the esteem  
of his fellow students that a score of  
scholarships couldn't equal.—Cleveland  
Plain Dealer.

## Dead as a Doornail.

"As dead as a doornail" at first  
seems utterly senseless, but becomes  
lively and picturesque when we re-  
member that knockers were once uni-  
versally used. Beneath the knocker,  
in order to prevent disfiguring the  
door, a large nail or bolt was driven.  
An impatient caller, waiting for the  
door to be opened, would frequently  
use the knocker with great force, and  
the irrepressibility of the nail gave  
rise to this expression.

## Inconsistency.

"What is inconsistency?" asked the  
curious one."Well," responded the wise one, "it  
is that spirit which moves a woman  
whose sleeves stop at the elbow to  
scold her husband because he hasn't  
any cuffs on."—Exchange.

## Impossible.

Lawyer—Say that you want a  
divorce from your husband. Why is it  
that you can't get along with him? Client—  
He wants me to be reasonable.—  
New York Press.ABOLISH THE  
OLD BACK YARDMake All the Ground Around  
Your Home Attractive.

NO RUBBISH, NO DISEASE.

Co-operation Between Owners and  
Tenants Would Do a Great Deal To-  
ward Changing Present Conditions.  
It Would Also Increase Values.Why was the back yard ever invent-  
ed? Why need there be a rear and a  
front to a house? And why have most  
homes two rears and no front? The  
rear of a house was originally designed  
as a place where coal was delivered,  
where waste was removed and where  
deliveries from tradesmen were made.  
But in city homes the garbage and the  
ashes go out the front door, and deliv-  
eries are made there. In fact, it by  
necessity has become the back door.  
And what is the back yard? Usually a  
place for weeds to grow, a place for  
rubbish to accumulate, a place to hang  
out the wash, a breeding place for mos-  
quitoes and flies and an eyesore to  
about half the population of tenants,  
who day by day, month after month,  
have to look out upon it. So states the  
Title Insurance News.If ever any one pays the penalty for  
a sin it is the owner of real estate, res-  
idential property, who is carrying the  
burden of the back yard. How does the  
owner of such property pay the pen-  
alty, and can he escape it? Rear rooms  
bring less income than street rooms be-  
cause of existing conditions. Yet why  
not make rear rooms front rooms and  
correspondingly increase the income  
from residential property?Take, for example, a block of houses  
running from one avenue to another.  
Backing up to each other there are  
about thirty-four houses, twenty feet in  
width. There is a stretch of open land  
between the two rows of houses about  
700 feet long and approximately 100  
feet wide.Let us imagine, if we can, that the  
owners of these seventy pieces of

A DESOLATE BACK YARD.

property got their heads together and  
decided that they would place this  
vacant space in the hands of two or  
three or five of their number as trust-  
ees for a period of five years, each  
contributing alike to the cost, and that  
fences be torn down, rubbish cleared  
up and the plot turned into a "mini-  
ature park and playground—in short,  
that the rear of these houses become  
the front. What would happen? Count-  
ing the number of rooms facing the  
back yard as about the same as those  
facing the street and that there is a  
difference in the rental income of  
about 20 per cent, it would be safe to  
assume that by making such a change  
the income of the rear rooms facing  
our imagined miniature park would  
bring in an additional income of 20  
per cent in excess of their usual rental  
value, which on the entire property  
would show an increase of possibly  
from 5 to 10 per cent.Not taking into consideration the  
increased income, would not such prop-  
erties always find occupants in prefer-  
ence to others that could not offer this  
attractive feature? Would we not be  
providing an ideal playground for the  
children, taking them from the streets  
with its dangers? Would not such re-  
creations afford comfort, afternoons and  
evenings, to the occupants of the rear  
—men and women who must pass the  
greater part of their summers in the  
city?The average summer population in  
the seventy houses does not fall far  
short of 1,000 persons. By renting a  
portion of the space for the privilege  
of serving ice cream and soda fountain  
drinks there would be sufficient in-  
come from the privilege to more than  
pay for the upkeep of the plot.Any step that will help make city  
life more attractive will help to main-  
tain values. Does not this suggestion  
offer a remedy for one of the causes  
of decreasing income from rooming  
properties in certain cities?

## Flower Bedecked Windows.

Here is an idea which could be adapt-  
ed to the beautifying of towns with  
great advantage. The municipality of  
Paris offers prizes for the most at-  
tractive window decorations by using  
blossoming plants, there being several  
classes in which competitors may  
strive—that is, single windows, whole  
house fronts and the fronts of mercan-  
tile establishments.

## ANNUAL BAZAAR OF THE CONGREGATIONAL CHURCH.

The annual bazaar held by the ladies of the Congregational church Tuesday evening was a gratifying success in every way. The social room of the church was tastefully decorated with greens and hearts—in keeping with the valentine season.

The different booths were attractively arranged—bamboo lends itself gracefully for this purpose—and the wares made a fine display. The sales commenced early and were lively and nearly every booth sold completely out.

The refreshment tables were filled most of the time and the dainty waiters were busy until a late hour dispensing the delicious and delectable sweets.

The receipts were somewhere in the neighborhood of \$100, although it is early yet to know the exact amount.

The chairmen of the different committees feel grateful for the hearty response to their calls for help, and know that in this lays their success. The money earned in this way by the ladies of the different societies goes to make the city's churches comfortable and attractive to strangers as well as home members, and should receive hearty co-operation and be liberally patronized by residents and tourists.

## STOCK COMPANY NOT TO FINISH ITS ENGAGEMENT.

Because of the small attendance at the two appearances of the Mad-dock Field players at the New Daytona theater Monday and Tuesday nights, the engagement of the company here has been cancelled and the play for tonight will not be given. The company is a good one and the plays given were well presented, but the size of the two audiences caused the company to play here at financial loss, so the engagement was cancelled.

Mrs. Charles Emmons of Ormond, whom Mrs. Alice E. Gwinner of this city has been nursing for several weeks past, came to Daytona with Mrs. Gwinner Monday and spent the day here with Mrs. T. O. Milton of Baker street, a daughter of Mrs. Gwinner. Mr. Emmons and a friend, Mr. Carnell, of Canada, accompanied them.
